

Invitation

to the
PERMAS Users' Conference
on
April 23 and 24, 2026
in
Tübingen

INTES cordially invites you to the 18th PERMAS Users' Conference in the historic building of the Museum Societät in Tübingen. Tübingen is one of the oldest university towns in Germany with a picturesque old town.

Discover a wide range of exciting topics in our presentation program! Experience the premiere of the new PERMAS program release, Version 21, live and immerse yourself from innovations.

Use this event as your platform: for stimulating exchange of experiences, for networking, and for in-depth discussions with our developers. Our partners await you in our accompanying exhibition where you can explore the entire spectrum of simulation workflows.

We have designed this program together with you – for our international community. The conference language is English. We look forward to seeing you again!

General Information

Consent for image and sound recordings

As part of the PERMAS Users' Conference, INTES intends to take photographs, film and sound recordings and/or have them taken by a third party. These recordings will subsequently be published as part of the aforementioned event, as well as for advertising and external representation purposes on the INTES GmbH website, on the INTES YouTube channel, and in other publications. Please note that the recordings will be accessible worldwide once published online, and their use by third parties cannot be ruled out. By registering for the conference, you consent to the use of the above-mentioned recordings by INTES for the aforementioned purposes without any restrictions regarding time, geography or content. This consent is valid until revoked.

Ban on photography

Please note that no photography, filming or sound recordings are permitted during the lectures.

Public charging stations

There are a large number of charging stations in the König parking garage. There are 4 charging stations in the Altstadt parking garage opposite.

Proceedings

A few days after the conference, you will receive an email with a download link. There you will find the event presentations for your personal use.
