

Installation Emacs 23.4 for Windows with INTES Gold package

1. please check if **PERMAS documentation** is installed
documentation directory must contain all ***.pdf and *.chi** files
2. please check if Adobe Reader version **9, 10 or 11** is installed
(also Sumatra PDF Reader works fine with Emacs Gold)
3. unpack the installation file to a temporary directory
4. run install.exe, this opens the installation GUI
5. specify path to PERMAS documentation
6. specify installation directory for emacs
7. start installation process
8. remove the temporary directory
9. create a Shortcut on the Desktop->
<INSTALL_DIR>\emacs-22.3-bin-i386\emacs-22.3\bin\runemacs.exe
